

AMENDMENTS TO THE CLAIMS

Please amend the claims as indicated in the **Listing of Claims** given below, which replaces, without prejudice, all previous sets of claims.

LISTING OF CLAIMS

1. – 26. (Cancelled).

27. (New) A lottery gaming system, comprising:

a lottery ticket, the lottery ticket including a ticket identifier, an interactive game information, and an instant game information, and a removable covering concealing the instant game information;

a lottery ticket dispenser configured to dispense the lottery ticket, the lottery ticket dispenser including an input device configured to receive, prior to the lottery ticket being dispensed, an input indicating a player's choice of whether to purchase a ticket for use only as an instant lottery ticket or as a hybrid instant lottery ticket that is also usable in an interactive game;

a central computer system in communication with the lottery ticket dispenser and configured to receive from the lottery ticket dispenser an indication that the player has chosen to purchase the lottery ticket for use in the interactive game, the central computer system configured to, responsive to the receipt of the indication, to activate the lottery ticket for use in the interactive game; and

a computing device remote from and in communication with the central computer system, the computing device configured to receive the interactive game information from the lottery ticket, the computing device further configured to be utilized by the player to play the interactive game based at least in part on the interactive game information.

28. (New) The lottery gaming system of claim 27, wherein the lottery ticket dispenser further comprises:

a printer configured to print the interactive game information on the lottery

ticket responsive to the indication that the player has chosen to purchase the lottery ticket for use in the interactive game.

29. (New) The lottery game system of claim 27, wherein the lottery ticket is pre-printed with the interactive game information, the ticket dispenser further comprising:

a reader configured to read the ticket identifier from the lottery ticket prior to the ticket being activated for use in the interactive game.

30. (New) The lottery game system of claim 29, wherein the reader is configured to read the ticket identifier from the lottery ticket prior to the lottery ticket being dispensed.

31. (New) The lottery game system of claim 29, wherein the ticket dispenser is further configured to communicate the ticket identifier read from the lottery ticket to the central computer.

32. (New) The lottery game system of claim 27, wherein the ticket identifier and interactive game information are encoded in a bar code.

33. (New) The lottery game system of claim 27, wherein the ticket identifier and interactive game information are separate and apart on the ticket.

34. (New) The lottery gaming system of claim 27, wherein the interactive game information further comprises:

an access code configured to permit the player to access the interactive game.

35. (New) The lottery gaming system of claim 27, wherein the computing device is in communication with the central computer system via the Internet.

36. (New) The lottery game system of claim 35, wherein the interactive game information further includes an Internet address where the player can access the interactive game.

37. (New) The lottery gaming system of claim 27, wherein the computing device is remote from the lottery ticket dispenser.

38. (New) The lottery gaming system of claim 27, wherein the computing device is incorporated into the lottery ticket dispenser.

39. (New) The lottery gaming system of claim 27, wherein the computing device is a handheld device.

40. (New) The lottery gaming system of claim 27, wherein the result of the interactive game is based at least in part on a skill component.

41. (New) The lottery gaming system of claim 27, wherein the result of the interactive game is based at least in part on the result of an event external to the lottery system.

42. (New) The lottery gaming system of claim 41, wherein the external event is a result of a sporting competition.

43. (New) The lottery gaming system of claim 27, wherein the interactive game information is pre-printed on the lottery ticket and activated in response to a transmission of the identifier to the central computer system.

44. (New) The lottery gaming system of claim 27, the central computer system is further configured to transmit the interactive game information to the ticket dispenser and wherein the ticket dispenser is configured, responsive to the receipt of the interactive game information from the central computer, to print the interactive game information on the game ticket.

45. (New) The lottery gaming system of claim 27, wherein the removable covering

is a scratch-off layer.

46. (New) The lottery gaming system of claim 27, wherein the removable covering includes the interactive game information.

47. (New) The lottery gaming system of claim 27, wherein the lottery ticket is releasably coupled by lines of weakness to additional lottery tickets in a fan fold stack of lottery tickets.

48. (New) A method of conducting a lottery, comprising:
accepting a payment from a player for a lottery ticket;
receiving an input indicating a player's choice of whether to purchase a ticket for use only as an instant lottery ticket or as a hybrid instant lottery ticket that is also usable in an interactive game;

responsive to the player's choice to purchase a lottery ticket for use in the interactive game and the acceptance of payment from the player for the lottery ticket, providing the player a lottery ticket including a ticket identifier, an instant win information concealed by a removable covering, and an interactive game information;

responsive to the player's choice to purchase the lottery ticket for use in the interactive game and the acceptance of payment from the player for the lottery ticket, activating the lottery ticket for use in the interactive game, the activating based at least in part on a ticket identifier;

redeeming the lottery ticket for a prize if the instant win information included in the lottery ticket indicates that the lottery ticket is an instant game winner;

receiving a request from the player to play the interactive game on a computing device;

receiving at least a portion of the interactive game information from the ticket at the computing device; and

providing an interactive game play to the player at the computing device, the interactive game play based at least in part on the interactive game information.

49. (New) The method of claim 48, wherein the interactive game information is pre-printed on the lottery ticket.

50. (New) The method of claim 48, further comprising:
responsive to the player's choice to purchase a lottery ticket for use in an interactive game, printing the interactive game information on the lottery ticket.

51. (New) The method of claim 48, wherein the activating further comprises:
reading the ticket identifier from the lottery ticket;
transmitting the ticket identifier to a central computer system;
storing a database entry indicating the ticket has been activated at the central computer system.

52. (New) The method of claim 48, wherein the activating the lottery ticket occurs prior to providing the player the lottery ticket.

53. (New) The method of claim 48, wherein the ticket identifier and the interactive game information are encoded in a bar code.

54. (New) The method of claim 48, further comprising:
crediting an account of the player if the player wins the interactive game.

55. (New) The method of claim 48, further comprising:
providing the interactive game information on the removable covering;
redeeming the lottery ticket for a prize in the instant win game without receiving a tender of the removable covering;
providing the interactive game play to the player at the computing device after the player has redeemed the lottery ticket for a prize in the instant win game.
